

# Embraer Legacy 650

*Midsized Cabin Category*

*Comparable NetJets Models: G200 & F2000EX/2000*

**High Speed Cruise:** 522 mph

**Typical Passenger Configuration:** 13

**Estimated Maximum Range @ LRC:** 4,200 sm (2 pax) / 3,800 sm (13 pax)

**Estimated Endurance @ HSC:** 7.5 – 8.0 hrs

**Baggage capacity:** 240.00 ft<sup>3</sup>

- Successor to the Legacy 600, the Legacy 650 was certified by the FAA on Feb. 25, 2011 and features upgraded avionics and engines, resulting in improved range and “hot & high” performance capabilities.
- Very generous baggage volume compared to other aircraft models in its category.
- The Legacy 650’s long a narrow cabin is attributed to its airliner heritage. The G200 is slightly wider and taller, while the F2000EX/2000 is nearly foot wider and slightly taller.
- Being a converted airliner, the Legacy 650 cannot cruise at the higher altitudes as the NetJets aircraft in order to avoid adverse weather and commercial airline traffic.
