

Avantair Piaggio Avanti P-180-II

Light-Midsize Cabin Category (turboprop)

Comparable NetJets Models: N/A

Overall Cabin Length: 14.60 ft.

High Speed Cruise: 442 mph

Typical Passenger Configuration: 7

Maximum Range @ LRC: 1,517 sm (2 pax) / 1,125 sm (7 pax)

Approximate Endurance @ HSC: 2.7 – 3.4 hrs

Baggage capacity: 60.00 ft³

- The Avanti P180-II is the variant of the Avanti P-180 turboprop, with upgraded engines and increased range and payload capabilities.
- There are essentially no differences between the cabin, baggage capacity, or exterior appearance compared to the classic Avanti P-180.
- The Avanti P-180-II is nearly 70 mph slower than the H400XP, resulting in considerable time savings for NetJets Owners on important trips such as NY to South Florida.
- The Avanti P180-II's turboprop engines are very loud and have come under criticism from numerous airport authorities for the excessive noise that it creates vs. the quieter NetJets jet aircraft types.
