- Gulfstream G650 will be the largest aircraft available in the Gulfstream fleet when it is certified at the end of 2011 or early 2012. Cabin size will be similar to the Global aircraft.
- High Speed Cruise is 593 mph; slightly faster than the Citation X. This will earn the title of fastest civil aircraft in the world.
- The Global 7000 will accommodate more passengers (up to 17) with range similar to the G650. The Global 8000 should accommodate 13 passengers with greater range than the G650.
