- Like the G200 and F2000EX/2000, the Legacy 600 features coast-to-coast range with the capability to operate to Hawaii.
- Very generous baggage volume compared to other aircraft models in its category.
- The Legacy 600's long narrow cabin is attributed to its airliner heritage. The G200 is slightly wider and taller, while the F2000EX/2000 is nearly foot wider and slightly taller.
- Being a converted airliner, the Legacy 600 cannot cruise at the higher altitudes as the NetJets aircraft in order to avoid adverse weather and commercial airline traffic.
