

# Avantair Piaggio Avanti P-180

Light-Midsize Cabin Category (turboprop)

Comparable NetJets Models: N/A

Overall Cabin Length: 14.60 ft.

**High Speed Cruise:** 420 mph

**Typical Passenger Configuration:** 7

**Maximum Range @ LRC:** 1,635 sm (2 pax) / 1,038 sm (7 pax)

**Approximate Endurance @ HSC:** 2.6 – 3.8 hrs

**Baggage capacity:** 60.00 ft<sup>3</sup>

- The Avanti P180 turboprop features a generous cabin, however, is vastly slower and limited on payload vs. jet aircraft. For example, the P-180 becomes very limited for payload when carrying more than 4 passengers with baggage (at 220lbs each).
- The H400XP is over 90 mph faster than the Avanti P-180, resulting in considerable time savings for NetJets Owners on important trips such as NY to South Florida.
- The Avanti P-180's turboprop engines are very loud and have come under criticism from numerous airport authorities for the excessive noise that it creates vs. the quieter NetJets jet aircraft types.
