- The Phenom 100 is essentially a niche aircraft for entry level jet consumers who own/operate their own aircraft (not necessarily targeted towards typical NetJets clientele).
- Offers good exterior baggage capacity for an aircraft of its size; slightly more baggage volume vs. the Hawker 400XP.
- Offers faster cruise speeds than the Citation Mustang; however, is still 74 mph slower than the slowest NetJets aircraft models.
- Ultra-regional range is not as generous as the range of any NetJets light cabin aircraft.
