- The single-pilot Hawker 200 is designed to be a variant of the Premier 1A with upgraded engines, a composite fuselage, updated avionics, and winglets.
- Hawker Beechcraft announced on December 5, 2011 that the Hawker 200's certification program was on hold "until further notice". However, the Hawker 200 remains as a product offering on Hawker Beechcraft's website at the present time.
